

St Patrick's Science Principles KS1

In KS1 we:

- Have fun and interesting Science lessons
- Ask scientific questions so we can gain new knowledge
- Challenge ourselves so we can learn new scientific skills
- Have independence to do our own hands-on Science investigations
- Share what we learn so we can inspire others in our class and school
- Learn about the world around us through investigations
- Look back on what we have written so we can notice new things and learn from them
- Use what we have learned to prepare us for the future
- Link science to other subjects

Our Enquiry Wheel:
