

St Patrick's Science Principles UKS2

In UKS2 we:

- Understand science is a **fun** and **engaging** subject that we enjoy
- Enjoy being **challenged** so we can **learn** and **understand** more within Science topics
- **Use** the correct scientific equipment so we can enjoy **safe** lessons
- **Learn** about relevant topics to us that we encounter in real-life so we **understand** our world better
- **Get hands-on** during our investigations so we can take **ownership** over our learning
- **Record** our ideas in appropriate ways so we can **remember**, **evaluate** and **revise** what we have learned
- **Recognise** that Science links to other subjects and **explore** how these **develop** our understanding of scientific topics
- **Work together** so we can **inspire** others with our learning
